Re.: CC Docket No. 96-45

This is to certify that Plateau Telecommunications, Inc. (Texas RSA 3 – Limited Partnership) will use its Interstate Common Line Support only for the provision, maintenance, and upgrading of facilities and service for which the support is intended.

I am authorized to make this certification on behalf of the company named above. This certification is provided for all study areas under the common control of the company, and which are listed below.

Signed,

Tom M. Phelps  
CEO

APPLICATION OF PLATEAU §  
TELECOMMUNICATIONS, INC. (TX RSA §  
3 LIMITED PARTNERSHIP) FOR §  
DESIGNATION AS AN ELIGIBLE §  
TELECOMMUNICATIONS CARRIER §

2005 JAN 13  
PUBLIC UTILITY COMMISSION  
OF TEXAS

ORDER NO. 4  
NOTICE OF APPROVAL FOR DESIGNATION AS  
AN ELIGIBLE TELECOMMUNICATIONS CARRIER (ETC)

*Procedural History*

On November 30, 2005, Plateau Telecommunications, Inc. (TX RSA 3 Limited Partnership) (Plateau) filed an application for designation as an eligible telecommunications carrier (ETC) pursuant to 47 U.S.C. § 214(e) and P.U.C. SUBST. R. 26.418. On December 30, 2005, Plateau filed a supplement to its application. Plateau is seeking ETC designation in the rural study areas of the following rate centers: East Glenrio, Farwell, Pleasant Hill, Bula, Lariat, Lazbuddie, Lehman, Maple, Needmore, Bovina, Friona, Earth, Muleshoe, Olton, Springlake, and Sudan as identified in Attachment C to its application.

The Commission issued Order No. 1 in this proceeding which established a procedural schedule, including deadlines for comment, and motions to intervene. The Commission published notice in the *Texas Register* on December 16, 2005. The Applicant provided a copy of the application to the Office of Public Utility Counsel at the time of filing. Pursuant to P.U.C. SUBST. R. 26.418(g)(2)(A)(i), the effective date shall be no earlier than 30 days after the filing date of the application or 30 days after notice is completed, whichever is later. Therefore, the earliest effective date for this proceeding is January 16, 2006.

No objection, comment, or motions to intervene were filed, and no hearing was requested. P.U.C. SUBST. R. 26.418(g)(2)(A) provides that applications for ETC designation may be reviewed administratively.

On January 9, 2006, Commission Staff (Staff) filed a recommendation for approval of ETC status for Plateau based on the following:

***Designation as Eligible Telecommunications Carrier***

To qualify for ETC status, a carrier must meet four conditions:<sup>1</sup>

1. The carrier must be a common carrier, as that term is defined by the Federal Telecommunications Act of 1996 (FTA '96), Section 3(10).
2. The carrier must offer the following services (requisite services),<sup>2</sup> using its own facilities or a combination of its own facilities and the resale of another carrier's services:<sup>3</sup>
  - (a) voice grade access to the public switched network;
  - (b) local usage;
  - (c) dual tone multi frequency signaling or its functional equivalent;
  - (d) single party service or its functional equivalent;
  - (e) access to emergency services, including such services as 911 or enhanced 911;
  - (f) access to operator services;
  - (g) access to interexchange service;
  - (h) access to directory assistance; and
  - (i) toll limitation for qualifying low income customers.<sup>4</sup>
3. The carrier must advertise the availability of and charges for the requisite services in a media of general distribution.<sup>5</sup>
4. The carrier must provide Lifeline and Link Up support, and may not collect a deposit from a customer receiving such support if the customer also elects toll blocking.<sup>6</sup>

---

<sup>1</sup> 47 C.F.R. § 54.201(b)-(d) (2001).

<sup>2</sup> 47 C.F.R. § 54.101 (2001).

<sup>3</sup> 47 C.F.R. § 54.201 (2001).

<sup>4</sup> Pursuant to FTA § 54.400(d), the FCC defines "toll limitation" as either toll blocking or toll control for eligible telecommunications carriers that are incapable of providing both service.

<sup>5</sup> *Id.*

<sup>6</sup> 47 C.F.R. § 54.405 (2001).

Plateau meets all of the above criteria. Plateau will advertise the designated services and their rates through notices using media of general distribution. Plateau provides the required services through a combination of its own facilities throughout its service areas, and either its own facilities or other arrangements in the area of Deaf Smith County that is outside Eastern New Mexico Rural Telephone Cooperative's current service area. However, Plateau reserves the right to provide the required services through a combination of its own facilities and resale of another carrier's services when necessary. Although Plateau did not provide a proposed Lifeline and Link Up tariff in its application, it has made the commitment to offer Lifeline and Link Up support.

Plateau has not requested any waivers of the FCC requirements. Plateau does not offer toll control, but on December 30, 1997, the FCC clarified its Order regarding "toll limitation" to require a carrier to offer only one form either toll blocking or toll limitation, for designation as an ETC. The Commission has recognized the FCC's clarification. Plateau offers toll blocking and therefore meets this criterion.

Plateau has provided a map of its service area and a list of its service area rate centers and has committed itself to serve any customer within its area and to abide by the FCC's regulations regarding E-911 service. Plateau has implemented Phase I E-911 in all of its Texas markets. When requested by a Public Safety Answering Point, Plateau will be required to offer Phase II E-911 service. Finally, Plateau's application and supplemental filing addressed the Commission's request for competitive carriers entering rural areas to provide service that enhances or exceeds existing telecommunications service. Plateau stated its intention to provide substantial network investment for the purpose of providing improved signal quality and improved system reliability in all of its service areas, and service to all requesting customers upon its designation.

Staff stated that Plateau's application is in the public interest.

***Ordering Paragraph***

In accordance with Staff's recommendation and for all the reasons stated therein, pursuant to the FTA § 214(e)(2) and P.U.C. SUBST. R. 26.418, Plateau's application for ETC designation is **APPROVED** effective January 16, 2006. Plateau is granted ETC status for the rural study areas of the following rate centers: East Glenrio, Farwell, Pleasant Hill, Bula, Lariat, Lazbuddie, Lehman, Maple, Needmore, Bovina, Friona, Earth, Muleshoe, Olton, Springlake and Sudan as identified in Attachment C to its application. Applicant is required to file a tariff to implement Lifeline Service and Link Up Service or revise its existing tariff in compliance with P.U.C. SUBST. R. 26.412 and applicable law.

SIGNED AT AUSTIN, TEXAS the 13<sup>th</sup> day of January 2006.

**PUBLIC UTILITY COMMISSION OF TEXAS**

  
**IRENE MONTELONGO**  
**ADMINISTRATIVE LAW JUDGE**
